

## NEW: Extremely Thin Buoyant Fiber

Linden's 250 $\mu$ m buoyant fiber optics

Linden's expands their diverse product line to include a new, lightweight, extremely thin fiber optic tether. We can customize your size, buoyancy and strength; from neutrally buoyant designs to cable that will float on water to cables with slow sink rates. Using Linden's patented cable jacket construction designed to protect the fiber in the harsh subsea environment, our cables are compact and rugged; flexible and strong.
